Book Review:

“NAN: The Trifling Times of Nathan Jones is a deep story of betrayal in the worst way. This spellbinding story is centered on Joseph Hayes and Nathan Jones. Their lives are invariably linked by one common denominator. They both suffer the tragic loss of their parents on the same night by the same killer.

Nathan and Joseph form a bond as blood brothers because of this horrific tragedy. Mark Carson is one of the cops involved in the investigation of the murder of their parents. He takes an interest in them and becomes their mentor.

Nathan and Joseph never completely get over the loss of their parents and struggle with nightmares while trying to move forward with their lives.

Years later, Nathan and Joseph are asked to help out a friend by making a delivery of drugs unbeknownst to them. This drastically changes their lives and is the beginning of the ultimate form of betrayal.

Traps are set, lives are lost and hidden agendas are revealed in this compelling tale that will have readers eagerly awaiting the next book to uncover the ending to this action packed read.

Moses Miller does an extraordinary job depicting this intriguing story.
